

G-1 -- Balance Computation Methods Model Clauses

(a) Adjusted balance method

We figure [a portion of] the finance charge on your account by applying the periodic rate to the "adjusted balance" of your account. We get the "adjusted balance" by taking the balance you owed at the end of the previous billing cycle and subtracting [any unpaid finance charges and] any payments and credits received during the present billing cycle.

(b) Previous balance method

We figure [a portion of] the finance charge on your account by applying the periodic rate to the amount you owe at the beginning of each billing cycle [minus any unpaid finance charges.] We do not subtract any payments or credits received during the billing cycle. [The amount of payments and credits to your account this billing cycle was \$ _____.]

(c) Average daily balance method (excluding current transactions)

We figure [a portion of] the finance charge on your account by applying the periodic rate to the "average daily balance" of your account (excluding current transactions). To get the "average daily balance" we take the beginning balance of your account each day and subtract any payments or credits [and

any unpaid finance charges]. We do not add in any new [purchases/advances/loans]. This gives us the daily balance. Then, we add all the daily balances for the billing cycle together and divide the total by the number of days in the billing cycle. This gives us the "average daily balance."

(d) Average daily balance method (including current transactions)

We figure [a portion of] the finance charge on your account by applying the periodic rate to the "average daily balance" of your account (including current transactions). To get the "average daily balance" we take the beginning balance of your account each day, add any new [purchases/advances/loans], and subtract any payments or credits, [and unpaid finance charges]. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance."

(e) Ending balance method

We figure [a portion of] the finance charge on your account by applying the periodic rate to the amount you owe at the end of each cycle (including new purchases and deducting payments and credits made during the billing cycle)

G-2 -- Liability for Unauthorized Use Model Clause

You may be liable for the unauthorized use of your credit card [or other term that describes the credit card.] You will not be liable for unauthorized use that occurs after you notify [name of card issuer or its designee] at [address], orally or in writing, of the loss, theft, or possible unauthorized use. In any case, your liability will not exceed [insert \$50 or any lesser amount under agreement with the cardholder.]
